Procrastinating Writers - Procrastinate No More
Are you a “non-practising” writer? Has a lack of time, energy or self-belief stopped you from starting and completing your writing project? Are you trapped within a writer’s block or stuck writing/re-writing the same old chapter? Importantly, have you noticed how discipline alone will not help? Whatever your writing issue, you are not alone; many writers both amateur and professional feel the same level of frustration when not able to follow through with a promise to them self, and/or others, to “write their book”, “tell their story” or create their family history. Whether you are writing for fun or serious profit, come along or create your own story. Whether you are looking at writing a memoir, non-fiction, or keeping a journal of your experiences, this course is perfect for you and will give you the skills and confidence you need to write about your experiences in a creative and interesting way. This one-day workshop covers the basics of the autobiographical process through a series of exercises, and discussions to get you on the way to writing your own story.
